3.0111 Public and Private Nuisance Defined. A public nuisance is one that affects at the same time an entire community or neighborhood, or any considerable number of persons, although the extent of the annoyance or damage inflicted upon the individuals may be unequal. Every other nuisance is private. (SDCL 21-10-3)

(Amended: Ordinance No. 2011-2, 10-13-11)

3.0112 Remedies Against Nuisances. The remedies against any nuisance shall be: (1) A civil action; (2) Abatement; and (3) In cases of public nuisance only, the additional remedy of indictment or information as prescribed by the Chapter or by the South Dakota Codified Laws, and the rules relating thereto. (SDCL 21-10-5)

(Amended: Ordinance No. 2011-2, 10-13-11)

3.0113 Abatement. A public nuisance may be abated without civil action by the Town Board or by any officer authorized thereto by law. The Town may defray the cost of abating a public nuisance by taxing the cost thereof by special assessment against the real property on which the nuisance occurred. When the nuisance abated is an unsafe or dilapidated building, junk, trash, debris or similar nuisance arising from the condition of the property, the Town may commence a civil action against the owner of the real property for its costs of abatement in lieu of taxing the cost by special assessment. - B. Subsequent notices. Upon any subsequent violation of this Chapter in the same calendar year after notice has been given as provided above, notice of a second or subsequent violation of the same or similar nature as the first violation, shall require the owner to remedy the nuisance within three (3) days of delivery or mailing.

(Amended: Ordinance No. 2011-2, 10-13-11)

- 3.0115 Public Nuisance Penalty and Remedy. Any person who creates, commits, maintains or fails to abate a public nuisance as required under the provisions of this Chapter shall be subject to a maximum penalty of thirty (30) days in jail or a five hundred dollar (\$500.00) fine, or both. A separate offense shall be deemed committed on each day during or on which a violation occurs or continues. The owner shall operate and maintain the private wastewater disposal facilities in a sanitary manner at all times, at no expense to the Town. No connection from any private wastewater disposal system shall be made with any public sanitary sewer under jurisdiction of the Town.
- C. When a public sewer becomes available to a property served by a private wastewater disposal system, as provided in 8.0102(D), a direct connection shall be made to the public sewer within sixty days in compliance with this Chapter, and any private wastewater disposal facilities shall be cleaned of sludge and filled with suitable material.
- D. No statement contained in this Chapter shall be construed to interfere with any additional requirements that may be imposed by a health officer.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0104 Sanitary Sewers, Building Sewers and Connections.

- A. No unauthorized person(s) shall uncover, make any connections with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Sewer Superintendent or other person designated by the Town Board.
- B. There shall be two classes of building sewer permits: (a) for residential

and commercial service, and (b) for service to establishments producing industrial wastes. In either case, the owner or his agent shall make application on a form furnished by the Town. The permit application shall be supplemented by any plans, specifications or other information considered pertinent by the Sewer Superintendent or other person designated by the Town Board. A permit and inspection fee established by resolution shall be paid to the Town at the time the application is filed.

- C. All costs in an expense incidental to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the Town from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer. The building owner shall be responsible for the maintenance of the building drain and the building sewer.
- D. A separate and independent four-inch diameter sewer service shall be provided for every living unit where a separate ownership or billing is anticipated, and in units where separate water services are required, and for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer. In lieu of a separate four-inch diameter sewer service for every living unit, a single building sewer of a size to be determined by the Town Board but in no event less than six-inch diameter, may be provided. The Town does not and will not assume any obligation or responsibility for damage caused by or resulting from any such single connection.
- E. Existing building sewers may be used in connection with new buildings only when they are found, on examination and test by the Sewer Superintendent or other person designated by the Town Board, to meet all requirements of this Chapter.
- F. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer at the owner's expense.
- G. No person(s) shall make connection of roof downspouts, foundation drains, areaway drains, sump pumps, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer. In certain locations or situations where surface water discharge would create a safety hazard during freezing weather, connection to the sanitary sewer line shall be permitted from November 1st to March 1st. No connections to the sanitary sewer will be permitted from March 1st to November 1st. The Town Board may by resolution, change any of these dates subject

to exceptional circumstances.

Any person, owner, lessee or occupant who has presently made or permitted to be made, or shall make or permit to be made, any connection or installation in violation of Section 8.0104(G) shall immediately remove that connection or correct that installation. If not removed or corrected within 30 calendar days after notice of violation has been delivered personally or by certified mail to that person, owner, lessee or occupant, the Town may impose a surcharge of \$100 per month on the sewer bill of the property owners who are not in compliance. All properties found during regular or periodic reinspection programs that violate Section 8.0104(G) will be subject, at the discretion of the Town, to the imposition of the monthly fee for all months between the two most recent inspections.

(Amended: Ordinance No. 2010-2, 11-11-10; 2012-1, 05-09-12)

- H. The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable specifications and requirements of the Town, or the procedures set forth in appropriate specifications of the A.S.T.M. and the W.P.C.F. Manual of Practice No. 9. All such connections shall be made gastight and watertight and verified by proper testing. Any deviation from the prescribed procedures and materials must be approved by the Sewer Superintendent or other person designated by the Town Board before installation.
- I. The applicant for the building sewer permit shall notify the Sewer Superintendent or other person designated by the Town Board when the building sewer is ready for inspection and connection to the public sewer. The connection and testing shall be made under the supervision of the Sewer Superintendent or other person designated by the Town Board.
- J. All excavations for building sewer installation shall be adequately guarded with barricades and lights to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of work shall be restored in a manner satisfactory to the Town.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0105 Use of the Public Sewers.

- A. No person shall discharge or cause to be discharged any unpolluted waters such as storm water, surface water, ground water, roof runoff, subsurface drainage or cooling water to any sanitary sewer, unless specifically authorized by the Sewer Superintendent or other person designated by the Town Board.
- B. Storm water other than that exempted herein and all other unpolluted

drainage shall be discharged to such sewers as are specifically designated as storm sewers, to the street or to a natural outlet approved by the Sewer Superintendent or other person designated by the Town Board and other regulatory agencies. Unpolluted industrial cooling water or process waters may be discharged, on approval of the Sewer Superintendent or other person designated by the Town Board, to a storm sewer or natural outlet. Groundwater collected by building subdrains must discharge to the ground surface outside of the building, a storm drain, a sump pump collection system, or a natural outlet. No sump pump discharge to the ground surface shall create a hazard or a nuisance, including but not limited to: ice accumulation on municipal streets, alleys, and sidewalks; damaging a municipal street or sidewalk; creating ponds of standing water or algae; or flowing over adjoining property. If a storm drain or sump pump collection system exists or is constructed adjacent to the property, the property owner shall be charged a permit fee and connect the sump pump or building subdrains to the storm sewer system.

- C. General prohibitions. No user shall introduce or cause to be introduced into the POTW any pollutant or wastewater which causes pass through or interference. These general prohibitions apply to all users of the POTW whether or not they are subject to categorical pretreatment standards or any other national, state or local pretreatment standards or requirements.
- D. Specific prohibitions. No user shall introduce or cause to be introduced into the POTW the following pollutants, substances or wastewater:
 - 1. Pollutants which create a fire or explosive hazard in the POTW, including, but not limited to, wastestreams with a closed-cup flash point of less than 140°F (60°C) using the test methods specified in 40 CFR 261.21;
 - 2. Wastewater having a pH less than 5.0 or more than 12, or otherwise causing corrosive structural damage to the POTW or equipment;
 - 3. Solid or viscous substances in amounts which will cause obstruction of the flow in the POTW resulting in interference;
 - 4. Pollutants, including oxygen-demanding pollutants (BOD, etc.), released in a discharge at a flow rate and/or pollutant concentration which, either singly or by interaction with other pollutants, will cause interference with the POTW;
 - 5. Wastewater having a temperature which will inhibit biological activity in the treatment plant resulting in interference, but in no case wastewater which causes the temperature at the introduction into the treatment plant to exceed 104°F (40°C);
 - 6. Petroleum oil, nonbiodegradable cutting oil or products of mineral

- oil origin, in amounts that will cause interference or pass through;
7. Pollutants which result in the presence of toxic gases, vapors or fumes within the POTW in a quantity that may cause acute worker health and safety problems;
 8. Trucked or hauled pollutants, except at discharge points designated by the Sewer Superintendent or other person designated by the Town Board;
 9. Noxious or malodorous liquids, gases, solids or other wastewater which, either singly or by interaction with other wastes, are sufficient to create a public nuisance or a hazard to life, or to prevent entry into the sewers for maintenance or repair;
 10. Wastewater which imparts color which cannot be removed by the treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions, which consequently imparts color to the treatment plant's effluent;
 11. Wastewater containing any radioactive wastes or isotopes except in compliance with applicable state or federal regulations;
 12. Sludges, screenings or other residues from the pretreatment of industrial wastes, except as specifically authorized by the Sewer Superintendent or other person designated by the Town Board;
 13. Wastewater causing, alone or in conjunction with other sources, the treatment plant's effluent to fail a toxicity test;
 14. Fats, oils or greases of animal or vegetable origin in amounts which will cause obstruction of the flow in sanitary sewers; or
 15. Light water foaming agents in quantities which would cause foaming problems in the POTW.
- E. Pollutants, substances or wastewater prohibited by Section 8.0105(D) shall not be processed or stored in such a manner that they could be discharged to the POTW. Any user discovered to have discharged any toxic pollutants into public sewer facilities, in addition to other penalties as provided by ordinance and law, shall be responsible for all costs associated with treating or otherwise disposing of such pollutants.
- F. Grease, oil and sand interceptors shall be provided when, in the opinion of the Sewer Superintendent or other person designated by the Town Board they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts, or oil, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a

type and capacity approved by the Sewer Superintendent or other person designated by the Town Board and shall be located as to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors the owner shall be responsible for the proper removal and disposal by appropriate means of the captured material and shall maintain records of the dates, and means of disposal, which are subject to review by the Sewer Superintendent or other person designated by the Town Board. Any removal and hauling of the collected materials not performed by the owner's personnel must be performed by a currently licensed liquid waste hauler.

- G. The disposal by any and all persons of garbage, cans, washers, filters and other foreign debris into the sanitary sewer system of the Town shall also be prohibited.
- H. The following described substances, materials, waters, or waste shall be limited in discharges to municipal systems to concentrations or quantities which will not harm either the sewers, wastewater treatment process or equipment, will not have an adverse effect on the receiving stream, or will not otherwise endanger health, public property, or constitute a nuisance. The Sewer Superintendent or other person designated by the Town Board may set limitations lower than those established in the regulations below if in his opinion more severe limitations are necessary to meet the above objectives.

In determining acceptability, the Sewer Superintendent or other person designated by the Town Board will give consideration to such factors as the quantity of subject waste in relation to flows and velocities in the sewers, materials of construction of the sewers, the wastewater treatment process employed, capacity of the wastewater treatment plant, degree of treatability of the waste in the wastewater treatment plant, and other pertinent factors. The limitations or restrictions on materials or characteristics of waste or wastewaters discharged to the sanitary sewer which shall not be violated without approval of the Sewer Superintendent or other person designated by the Town Board are as follows:

1. Wastewater having a temperature higher than 140° Fahrenheit (60° Celsius).
2. Wastewater containing more than 25 milligrams per liter of petroleum oil, nonbiodegradable cutting oils, or product of mineral oil origin.
3. Wastewater from industrial plants containing floatable oils, fat, or grease.
4. Any garbage that has not been properly shredded (see 8.0101(M)). Garbage grinders may be connected to sanitary sewers from homes, hotels, institutions, restaurants, hospitals, catering

establishments, or similar places where garbage originates from the preparation of food in kitchens for the purpose of consumption on the premises or when served by caterers.

5. Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances such that as received in the composite wastewater at the wastewater treatment works, it exceeds the limits established by the Sewer Superintendent or other person designated by the Town Board for such materials.
 6. Any waters or wastes containing odor-producing substances exceeding limits which may be established by the Sewer Superintendent or other person designated by the Town Board.
 7. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Sewer Superintendent or other person designated by the Town Board in compliance with applicable state or federal regulations.
 8. Quantities of flow, concentrations, or both which constitute a "slug" as defined herein.
 9. Waters or wastes containing substances which are not amenable to treatment or reduction by the wastewater treatment processes employed, or are amenable to treatment only to such degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.
 10. Any water or wastes which, by interaction with other water or wastes in the public sewer system, release obnoxious gases, form suspended solids which interfere with the collection system, or create a condition deleterious to structures and treatment processes.
- I. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in 8.0105(H), and which in the judgement of the Sewer Superintendent or other person designated by the Town Board, may have a deleterious effect upon the wastewater facilities, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Sewer Superintendent or other person designated by the Town Board may:
1. Reject the wastes,
 2. Require pretreatment to an acceptable condition for discharge to the public sewers,
 3. Require control over the quantities and rates of discharge, and/or
 4. Require payment to cover the added cost of handling and treating

the wastes not covered by existing taxes or sewer charges under the provisions of 8.0105(M) of this Chapter.

When considering the above alternative the Sewer Superintendent or other person designated by the Town Board shall give consideration to the economic impact of each alternative on the discharger. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent or other person designated by the Town Board.

Where pretreatment or flow-equalizing facilities are provided or required for any waters or wastes, they shall be maintained in satisfactory and effective operation by the owner at his expense.

- J. When required by the Sewer Superintendent or other person designated by the Town Board, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable structure together with such necessary meters and other appurtenances to facilitate observation, sampling, and measurement of the wastes. Such structure shall be accessible and safely located, and shall be constructed in accordance with plans approved by the Superintendent.

The structure shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

- K. The Sewer Superintendent or other person designated by the Town Board may require a user of sewer services to provide information needed to determine compliance with this Chapter. This information may include:

1. Wastewater discharge peak rate and volume over a specified time period.
2. Chemical analyses of wastewaters.
3. Raw materials, processes, and products affecting wastewater volume and quality.
4. Quantity and disposition of specific materials important to sewer use control.
5. A plot plan showing sewer and pretreatment facility locations on the user's property.
6. Details of wastewater pretreatment facilities.
7. Details of systems to prevent and control spills of materials into the municipal sewer.

- L. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association. Sampling methods, location, times,

durations, and frequencies are to be determined on an individual basis subject to approval by the Sewer Superintendent or other person designated by the Town Board.

- M. No statement contained in this chapter shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the Town for treatment.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0106 Prohibited Acts. No person(s) shall willfully or negligently damage, destroy, uncover, deface, or tamper with any structure, appurtenance or equipment which is a part of the wastewater facilities.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0107 Right of Entry; Inspection and Sampling. The Sewer Superintendent or other person designated by the Town Board shall have the right to enter the premises of any user to determine whether the user is complying with all requirements of this Chapter and any order issued hereunder. Users shall allow the Sewer Superintendent or other person designated by the Town Board ready access to all parts of the premises for the purposes of inspection, sampling records examination and copying, and the performance of any additional duties.

- A. Where a user has security measures in force which require proper identification and clearance before entry into its premises, the user shall make necessary arrangements with its security guards so that, upon presentation of suitable identification, the Sewer Superintendent or other person designated by the Town Board will be permitted to enter without delay for the purposes of performing specific responsibilities.
- B. The Sewer Superintendent or other person designated by the Town Board shall have the right to set up on the user's property, or require installation of, such devices as are necessary to conduct sampling and/or metering of the user's operations.
- C. The Sewer Superintendent or other person designated by the Town Board may require the user to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the user at its own expense. All devices used to measure wastewater flow and quality shall be calibrated at least annually or as needed to ensure and maintain their accuracy.
- D. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the user at the written or verbal request of the Sewer Superintendent or other person designated by the Town Board and shall not be replaced. The

costs of clearing such access shall be borne by the user.

- E. Unreasonable delays in allowing the Sewer Superintendent or other person designated by the Town Board access to the user's premises shall be a violation of this Chapter.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0108 Search warrants. If the Sewer Superintendent or other person designated by the Town Board has been refused access to a building, structure or property, or any part thereof, and is able to demonstrate probable cause to believe that there may be a violation of this Chapter, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program of the Town designed to verify compliance with this Chapter or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, then the Sewer Superintendent or other person designated by the Town Board may seek issuance of a search warrant from the circuit court.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0109 Proper Design and Construction of New Sewers and Connections. The size, slope, alignment, materials of construction of all sanitary sewers and sewer connections, and methods to be used in excavating, placing of pipe, jointing, testing, and backfilling the trench shall all conform to the requirements of the Uniform Building Code or other applicable rules and regulations of the Town and the State of South Dakota. In the absence of code provision or in amplification thereof, the materials and procedures set forth in appropriate specifications of the A.S.T.M. and W.P.C.F. Manual of Practice No. 9 shall apply.

All sanitary sewer shall be cast iron soil pipe, ASTM specification (A74-42) or equal, vitrified clay sewer pipe, ASTM specification (C13-441) or equal; PVC; or other suitable material approved by the Town Board.

Additional requirements may be provided when any part of a building sewer is located near a water service pipe, or where the sewer is exposed to damage by tree roots or unstable ground.

The size and slope of sanitary sewer shall be subject to the approval of the Town Board, but in no event shall the diameter be less than four inches. The slope of such pipe shall be not less than one eighth inch per foot.

Whenever possible, the sewer shall be brought to the building at an elevation below the basement floor. No sewer shall be laid parallel to or within three (3) feet of any bearing wall, which might thereby be weakened. The depth shall be sufficient to afford protection from frost. The sewer shall be laid at uniform grade and in straight alignment in so far as possible. Changes in direction shall be made only with properly curved pipe and fittings.

The connection of the sanitary sewer into the public sewer shall be made at the "y" branch, if such branch is available at a suitable location. Where the public sewer is greater than twelve inches in diameter, and no properly located "y" branch is available, a neat hole may be cut into the public sewer to receive the sewer connection, with entry in the downstream direction at an angle of about forty-five (45) degrees. A forty-five (45) degree ell may be used to make such connection, with the spigot end cut so as not to extend past the inner surface of the public sewer. Smooth, neat joint shall be made, and the connection made secure and watertight. The connection into the public sewer shall be made under the supervision of the Sewer Superintendent or other person designated by the Town Board.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0110 Disconnection. When a disconnection from the sanitary sewer is made, the sewer service shall be closed to the satisfaction of the Sewer Superintendent or other person designated by the Town Board. Closure shall be at the curb line on residential property and at the property line of commercial property.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0111 Hookups. Each private citizen or public entity shall pay all charges associated with a sewer hookup and no amount of sewer hookup cost shall be borne by the Town.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0112 Fee for Hookup.

- A. New Accounts with no existing sewer connection: The owner of any building newly constructed or moved on a lot, which is to be served by sewer within the Town of Monroe, shall pay a connection fee of \$125.00.
- B. Initial hookup fees when sewer connection exists: The owner of any building constructed or moved on to a lot with an existing sewer connection within the Town of Monroe shall pay \$25.00 for initial sewer hookup.
- C. Transfer Accounts: The new owner of any building on a lot where sewer connections are in place within the Town of Monroe shall pay a transfer fee of \$25.00.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0113 Renter Deposit. A deposit will be required prior to availability of service for all rental property. The amount of deposit shall be \$50.00. The deposit will be returned when the sewer user pays the account in full. If payment is not made, the deposit will be applied toward the account balance. In the event an occupant does not pay sewer bills, the landowner is required and will be held

responsible to pay any unpaid sewer bills.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0114 Sewer User Charge. Rates for the use of utilities furnished by the Town shall be established by resolution by the Monroe Town Board.

(Amended: Ordinance No. 2012-1, 05-09-12)

8.0115 Enforcement.

- A. Notification of Violation. When the Sewer Superintendent or other person designated by the Town Board finds that a user has violated, or continues to violate, any provision of this Chapter, or order issued hereunder, or any other pretreatment standard or requirement, the Sewer Superintendent or other person designated by the Town Board may serve upon that user a written notice of violation. Within fourteen days of the receipt of this notice, an explanation of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted by the user to the Sewer Superintendent or other person designated by the Town Board. Submission of this plan in no way relieves the user of liability for any violations occurring before or after receipt of the notice of violation. Nothing herein shall limit the authority of the Sewer Superintendent or other person designated by the Town Board to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation.
- B. Consent Orders. The Sewer Superintendent or other person designated by the Town Board may enter into consent orders, assurances of voluntary compliance or other similar documents establishing an agreement with any user responsible for noncompliance. Such documents will include specific action to be taken by the user to correct the noncompliance within a time period specified by the document. Such documents shall have the same force and effect as the administrative orders issued pursuant to sections 8.0105(D) and 8.0105(E).
- C. Show Cause Hearing. The Sewer Superintendent or other person designated by the Town Board may order a user which has violated, or continues to violate, any provision of this Chapter, or order issued hereunder, or any other pretreatment standard or requirement, to appear before the Sewer Superintendent or other person designated by the Town Board and show cause why the proposed enforcement action should not be taken. Notice shall be served on the user specifying the time and place for the meeting, the proposed enforcement action, the reasons for such action, and a request that the user show cause why the proposed enforcement action should not be taken. The notice of the meeting shall be served personally or by registered or certified mail (return receipt requested) at least 30 days prior to the hearing. Such

notice may be served on any authorized representative of the user. A show cause hearing shall not be a bar against, or prerequisite for, taking any other action against the user.

D. Compliance Orders. When the Sewer Superintendent or other person designated by the Town Board finds that a user has violated, or continues to violate, any provision of this Chapter, or order issued hereunder, or any other pretreatment standard or requirement, the Sewer Superintendent or other person designated by the Town Board may issue an order to the user responsible for the discharge directing that the user come into compliance within a specified time. If the user does not come into compliance within the time provided, sewer service may be discontinued unless adequate treatment facilities, devices, or other related appurtenances are installed and properly operated. Compliance orders also may contain other requirements to address the noncompliance, including additional self-monitoring and management practices designed to minimize the amount of pollutants discharged to the sewer. A compliance order may not extend the deadline for compliance established for a pretreatment standard or requirement, nor does a compliance order relieve the user of liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a bar against, or a prerequisite for, taking any other action against the user.

E. Cease and Desist Orders.

1. When the Sewer Superintendent or other person designated by the Town Board finds that a user has violated, or continues to violate, any provision of this Chapter, or order issued hereunder, or any other pretreatment standard or requirement, or that the user's past violations are likely to recur, the Sewer Superintendent or other person designated by the Town Board may issue an order to the user directing it to cease and desist all such violations and directing the user to:

- a. Immediately comply with all requirements; and
- b. Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge.

2. Issuance of a cease and desist order shall not be a bar against, or a prerequisite for, taking any other action against the user.

F. Violations; Penalties.

1. Any person found to be violating any provision of this Chapter or requirement imposed pursuant to this Chapter except Section 8.0106 may be served by the Town with written notice stating the

nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

2. Any person found to be violating any provision of this Chapter, requirement imposed pursuant to this Chapter, and/or any time limit set forth in the notice provided in this Section shall be guilty of a violation of municipal ordinances. Each day in which any such violation shall continue is a separate offense.
3. Any person violating any of the provisions of this Chapter shall become liable to the Town for any expense, loss or damage occasioned the Town by reason of such violation.
4. In addition to any other fine and/or penalty authorized by this Chapter, any industrial user or any significant industrial user who is found to be violating any provision of this Chapter, and/or any time limits set forth in the notice provided in this Section, is subject to a civil penalty not to exceed \$1,000.00 per violation per day of violation.

G. Emergency Suspensions.

1. The Sewer Superintendent or other person designated by the Town Board may immediately suspend a user's discharge, after informal notice to the user, whenever such suspension is necessary to stop an actual or threatened discharge which reasonably appears to present or cause an imminent or substantial endangerment to the health or welfare of persons. The Sewer Superintendent or other person designated by the Town Board may also immediately suspend a user's discharge, after notice and opportunity to respond, that threatens to interfere with the operation of the POTW, or which presents, or may present, an endangerment to the environment.
 - a. Any user notified of a suspension of its discharge shall immediately stop or eliminate its contribution. In the event of a user's failure to immediately comply voluntarily with the suspension order, the Sewer Superintendent or other person designated by the Town Board may take such steps as deemed necessary, including immediate severance of the sewer connection, to prevent or minimize damage to the POTW, its receiving stream, or endangerment to any individuals. The Sewer Superintendent or other person designated by the Town Board may allow the user to recommence its discharge when the user has demonstrated to the satisfaction of the Sewer Superintendent or other person designated by the Town Board that the period of endangerment has passed, unless the termination

proceedings in section 8.0115(H) are initiated against the user.

- b. A user that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit a detailed written statement, describing the causes of the harmful contribution and the measures taken to prevent any future occurrence, to the Sewer Superintendent or other person designated by the Town Board prior to the date of any show cause or termination hearing under sections 8.0115(C) or 8.0115(H).
2. Nothing in this subsection shall be interpreted as requiring a hearing prior to any emergency suspension under this subsection.

H. Termination of Discharge.

1. Any user who violates the following conditions is subject to discharge termination:
 - a. Violation of any permit conditions or order;
 - b. Failure to accurately report the wastewater constituents and characteristics of its discharge;
 - c. Failure to report significant changes in operations or wastewater volume, constituents and characteristics prior to discharge;
 - d. Refusal of reasonable access to the user's premises for the purpose of inspection, monitoring or sampling; or
 - e. Violation of the standards in Section 8.0105.
2. Such user will be notified of the proposed termination of its discharge and be offered an opportunity to show cause under Section 8.0115(C) why the proposed action should not be taken. Exercise of this option by the Sewer Superintendent or other person designated by the Town Board shall not be a bar to, or a prerequisite for, taking any other action against the user.
